
...e Combination Drilling Machine

[Product Features]

- Used for drilling holes on aluminum profiles and curtain wall
- Max.processing profile section size is 250×250mm, max. processing length is 5650mm.
- Multi-head boring machine can be fixed to meet multi-hole processing requirements.
- Feeding adopts pneumatic-hydraulic damping cylinder which has steady action.
- Schneider PLC control system with steady capability.

16mm	钻大径孔直径 Max drilling hole diameter	Max drilling hole diameter
300mm	每组孔最小距离 Min distance between each group holes	300mm
125mm	钻头进给行程 Drilling head travel	125mm

手截面不超过250×250mm的型材，加工长度
