

LXF₂-300×1.00

铝门窗双头仿形铣床 Double-head Copy-routing Milling Machine

[性能特点]

- 该铣床用于铝门窗的日常生产仿形的仿形铣床。
- 采用仿形模数和辅助定位两种仿形刀式。
- 使用脚踏开关控制压紧气缸，安全可靠。

[Product Features]

- It has features of compact structure and small volume; the air pressure drive the clamping.
- Simple model adjustment and replacement, wide adaptation, high efficiency.

技术参数 Technical Parameters

电源	Power supply	380v 50Hz
工作气压	Operation air pressure	0.8MPa
耗气量	Air consumption	30l/min
输入功率	Input power	2 × 0.75kW
铣刀直径	Diameter of the milling cutter	φ5、φ8
仿型触头直径	Diameter of copy-routing head	φ3、φ4、φ5
仿形范围	Copy-routing Range	±0.1mm
加工面的直线度	Processing deviation from straightness	±0.1mm
铣削型面粗糙度	Cutting profile surface roughness	Ra12.5
机床外形尺寸	Contour dimension	4050 × 950 × 1500mm(L × W × H)
重量	Weight	250kg
