

III / 7X / III

## IV-15

### [性能特点]

- 用于平开铝门窗五金件安装孔槽的冲压（限20mm欧标），
- 动力采用气动
- 五个工作位置，可完成平开扇料执手安装槽、通用水槽、角以及传动器端头冲孔( $\Phi 10$ 、 $\Phi 6$ )的加工。

### [Product Features]

- Used for hardware slots and cores punching for aluminum windows and doors.
- The driving is controlled by the pneumatic step value to make the work stable.
- The five working position can finish corner cutting and the driver cutting and punching processing.
